

Working Together To Staff Your Needs

Providing Quality People...
For An Ever Changing Workplace

Founded in 1982, Trialon Corporation was established to assist companies with their technical staffing needs. Trialon understands our clients have different needs and we take pride in our ability to adapt accordingly. We will successfully match candidates to your company culture and technical requirements. We maintain a track record of proven accomplishments in providing solutions for excess workloads by supplying qualified contract personnel, as well as direct placements. Trialon provides people throughout North America in many technical fields including Automotive, Aerospace, Telematic, Consumer Product and Biomedical Industries. Our experienced Account Managers and Recruiters are available to meet all your technical staffing needs.

Contract Staffing

Trialon is a leader in the contract staffing industry. Our reputation has been built on our ability to staff the most difficult and specialized niche sectors of the industries we service. The personalized services we provide offer our clients flexible staffing solutions and ensure that the professionals we send meet your technical requirements and fit within your company's culture. Give us a job description and our team will find the candidate you seek. When you contract through Trialon we handle the payroll, employee benefits and human resources functions, so you don't have to.

Direct Placement

Looking for an individual to hire direct? Trialon can help! Trialon Account Managers take the time to understand your organization and the environment within your company. This knowledge allows us to provide you with the most

technically qualified individuals that will seamlessly blend with your current workforce from day one. Our experienced recruiters will locate, screen and match candidates to your exact requirements. We can help you locate those hard to find candidates quicker than you thought possible. We specialize in providing experienced technical professionals and managerial professionals ranging from mid-level to executive-level status.

Engineering Services

Trialon also provides product and component test engineering services for Automotive, Aerospace, Industrial, Military, Medical and Consumer Product applications. One of our Account Managers can direct you to an associate in our Engineering and Test Services Division for more information.

" A Tradition Of Excellence "
